The 4th International Conference on Computer Applications and Information Processing Technology (CAIPT 2017) will be Anvaya Hotel, Bali, Indonesia on Aug 8 ~10, 2017 - hosted by Aptikom – East Java and organized by Korean Information Processing Society. CAIPT 2017 is an international conference for exchange of experience and knowledge among researchers and industrial experts concerned with IT and applications, which aims to promote academic exchanges and international cooperation. The conference will reflect the state-of-the-art of scientific discovery and implementation in all relevant aspects of IT and advanced applications, including theories, modeling, and practical applications. CAIPT 2017 aims at stimulating the Asian-Korea and specifically Indonesia-Korea collaboration in R&D. For more information, please visit <http://www.caipt.org>. Original papers are solicited in subjects including, but not limited to, the following:

<p>1. Wireless Network Technology</p> <ul style="list-style-type: none"> - Wireless PAN/LAN/WAN - Mobile Networks (NGN/BcN) - Wireless Communication Technology - Protocols and Standards - Cognitive Radio Networks - Ad Hoc, Sensor and Mesh Networking - Optical Networks and Systems - QoS issues in Wireless Networks - Beyond 3G and 4G Networks 	<p>2. Network and Information Security</p> <ul style="list-style-type: none"> - Mobile and Wireless Security - Trust and Privacy Concerns - DDOS Attacks, DNS Spoofing - Digital Right Management - Trust Modeling and Protocol Design - Multimedia Security (VoIP, IPTV, Smart Media) - Cloud and Distributed Application Security - Security, Privacy and Authentication in Mobile Systems
<p>3. Intelligent Software and Computing System</p> <ul style="list-style-type: none"> - Embedded Software Systems - Context Aware Systems - Cloud Computing - Grid Computing - Green Computing - Software and Middleware - Intelligent Signal Processing Algorithm - Business Intelligence and Multimedia Technology 	<p>4. Policy and Business Strategies</p> <ul style="list-style-type: none"> - Strategies and Policy Development - National Spectrum Management - Policy Issues in IT Application - IT Convergence Strategies - Laws and Policy in IT - Market Enterprise Analysis in IT - Network/Infrastructure Development - Management Issues
